

DECLARATION OF ENVIRONMENTAL COMPLIANCE

Giltrap City Ltd

We are committed to caring for our environment, the safety of our employees and the health of communities where we conduct our business.

We maintain a high standard of waste management and disposal, and have integrated environmental stewardship into our daily management.

Waste Management and Disposal

- ★ We comply with all relevant local, regional and national regulations on the removal, storage, handling and disposal of vehicle parts and hazardous material.
- ★ We continually search for new opportunities to reduce, re-use and recycle waste from vehicle repair work and servicing, parts packaging and office administration.
- ★ We use licensed waste management companies for the safe removal, recycling and disposal of hazardous waste parts and fluids.

Daily Environmental Management

- ★ We have appointed Stuart Illingworth as our 'Environmental Champion' to regularly audit our operations, to ensure compliance and encourage best practice.
- ★ We have implemented operating procedures to avoid or correct accidents or spillages.
- ★ We communicate environmental awareness and good practice to new and existing employees through formal induction, on-going training, and printed reference material.
- ★ We monitor our energy and water consumption and make efforts to continue efficiency improvements.
